LIFE OF FLOWER

You are the only flower in this world.
Give birth to the flower, let the
flower blossom.

Flower opens life.
Flower is love.
Flower is a gentle
Body Revolution.

When the winter comes, we feel more
our deep spirit, we yearn to return
to the seed of life.

To open up the universe we must go
through darkness and brightness,
life and death.

Flower always circulates life.
Flower continues opening.

LIFE OF FLOWER masterclass

The masterclass begins on Thursday evening with “HANA”, a solo performance by Atsushi Takenouchi, featuring live original music by Hiroko Komiya.

From Friday to Sunday we will dance the life and death of the flower, that draws its existence from darkness and opens up to the universe.

On Sunday evening, the work will conclude with a collective performance. Both the masterclass and the performance are conducted by Atsushi and accompanied by Hiroko's music.

The masterclass does not require any prior experience of Butoh and is conceived as an introduction to the principles of Jinen, the ancient Japanese word that designs the “Spirit of Nature”. It spans 7 hours each day and is open to dancers, actors, therapists, practitioners of all movement arts, and anyone who wishes to unlock their inner flower through the moving body.

Fees

Early birds (subscribers by 30 September): € 130

Late birds: € 150

+ € 10 for membership of Associazione Genius Loci Performance (mandatory)
